

Touch 'n Foam Insulating Sealants

Expands and seals wire and plumbing feed-thrus, sill plates and siding, electrical outlets, and large cracks and voids. Eliminates drafts and prevents heating and cooling loss. Bonds to most building materials. Tack-free in 30 minutes; can be cut, sanded, and painted in 4 hours. Available in 12 and 20 oz. cans.

Ideal for multi-step projects such as filling cracks, and then painting. Can be trimmed, sanded and painted in just one hour; tack-free in 10 minutes. Bonds to most building materials; should be painted when used outside. Available in 12 oz. can only.

Seals and insulates around window and door frames, which can be major draft areas. Lower expanding formulation helps to prevent frame bowing; bonds to most frame materials. Tack-free in 30 minutes; dries in 4 hours. Available in 12 and 20 oz. cans.
